

Colic

Acute abdominal pain or gas pains, often due to improper combination of food and retention of waste matter in the system. In all cases, this is due to improper diet, digestive disorder, and poor elimination.

Possible Causes and Contributing Factors:

- Intestinal flora imbalance
- Thymus dysfunction
- Milk sensitivity

Suggested Dietary Changes:

- Use different formula (goat's milk is closest to human)
- Change mother's diet if breastfeeding - mother should avoid refined carbohydrates, fried foods, processed foods, increase pure water intake
