

# Tuberculosis

A long term grainy tumorous infection caused by an acid-fast bacillus. Exposure is usually by breathing in or eating infected droplets. Usually affects the lungs, although the infection of other organ systems by other ways of getting the disease occurs.

## **Suggested Dietary Changes:**

- 50% raw vegetables and fruits – green drinks
- Avoid smoking, alcohol, stress
- Vegetarian diet is best

## **Core Supplemental Support:**

- Beta Carotene – 1 daily
- ImmunoMax – 2-3 each meal
- NAC
