## HA Plus Vegetarian Powder

Supports Joint Comfort and Function

Nutritional Support to Restore & Maintain Healthy Joint Function, Help to Build and Strengthen Cartilage & Connective Tissues and An Anti-inflammatory.

• **HA Plus Vegetarian Powder** is a great alternative to swallowing tablets and capsules.

### Supports:

- Joint Comfort
- Cartilage Health
- Joint Lubrication
- Range of Motion
- Flexibility

### About the Nutrients:

• **HA (HyaMax™)** is a natural lubricating agent in the joints and is found most abundantly in cartilage, synovial fluid and skin. HA provides natural cushioning structures needed by the joint. **HyaMax™ (vegetarian)** is the standardized natural Hyaluronic acid. It has the unique structure of mucopolysaccharide with extremely large molecule composed of repeat disaccharide units of Glucuronic acid and N-acetyl glucosamine, which can bind 1000 times its own weight of water for lubricating the movable parts of the human body, especially joints and muscles, moisturizing the skin, and carrying the nutrition to heal the wound.

• **Glucosavida® Glucosamine HCl (vegetarian)** is a 100% vegetable source produced through a unique, proprietary process of corn fermentation. Glucosamine is a fast acting nutritional building block for connective tissue. It is necessary for the production of hyaluronic acid (HA) and chondroitin sulfates which support joint comfort and mobility.

### Methylsulfonylmethane (MSM)

• MSM helps support joint comfort and supplies an excellent source of sulfur to help ensure the body's ability to synthesize collagen for connective tissue health, and maintain cell membrane flexibility.

**Beta-glucans** have been linked to enhanced immune function and support inflammation management including macrophage, B lymphocyte and suppressor T cell action, and increased non-specific-host resistance to a variety of bacterial, viral, fungal and parasitic infections. Beta-glucans have also been linked to reducing blood pressure and inducing satiety that can lead to weight loss.

**Arabinogalactans (AG)** are a class of long chained, densely branched polysaccharides (MW 10,000-120,000), which have been found to have strong immune-stimulating and anti-inflammatory properties. AG is rich in available Quercetin, which inhibits the release of histamines and leukotrienes into the bloodstream. Arabinogalactan is also an adjunct (assists in the metabolism of the other ingredients).

### Supplement Facts

**Serving Size: 1 Scoop (4.4g)**

**Servings Per Container: 60**

Evaporated Cane Juice	2000 mg
Glucosavida® (Vegetarian Glucosamine HCL)	500 mg
Methylsulfonyl Methane (MSM)	250 mg
Beta Glucan (1,3/1,6) From Yeast	200 mg
Galactoarabinan (Arabinogalactans)	150 mg
HyaMax® (Sodium Hyaluronate) (Hyaluronic Acid)	30 mg

**Other Ingredients:** grape skin extract, red beet powder, natural cherry avor, natural raspberry avor, natural strawberry avor, citric acid, silicon dioxide, stevia.

**Warning:** If pregnant or nursing, consult your healthcare practitioner before taking this product.

HyaMax® Sodium Hyaluronate is a registered trademark of Fenchem Biotek, LTD.
